

ROOSTERWELD

O-PAN WELDING BLANKETS

Special Welding Blankets are made from non woven 100% O-PAN material or in short Felt. Due to the special material used, the welding blanket is very soft and pleasant to touch, light-weight and portable. It is ideal for protection of sensitive surfaces. The handling it is very different from fibreglass welding blanket, as it does not create any itching and/or irritates the skin.

- Smooth surface & pleasant to touch
- Lightweight and portable
- Does not contain fiberglass
- Can be freely cut

ROOSTERWELD Blankets not only provide protection from spatters, sparks, heat treating, sand blasting and molten metals, they also insulate rays to establish a safe, clean and normative work environment during welding, cutting, sand blasting, heat treating... It is a piece of safety equipment designed to protect people, equipment, environment and other valuable items.

SPECIAL CHARACTERISTIC:

- Material: non woven 100% O-PAN (Felt)
- Instant impact temperature: up to 1250 °C
- Colour: Black
